

Our customer is a leading producer of superior, environmentally preferable towel, tissue, soap and dispensing products for the away-from-home market.

Challenges

- Excessive downtime and undisciplined lubrication practices
- Customer had to buy into change, and get rid of old practices such as manually lubricating hundreds of bearing taps.
- New reliability engineers wanted better outcomes on a proof-of-concept budget

Solutions / Products

- LubriSource worked with key suppliers to best-in-class lubrication systems
- LubriSource service technicians provided installation and maintenance support of new systems
- Customer eventually bolstered their lubrication program beyond the primary paper machine
- Currently, LubriSource provides regular maintenance and service

Benefits

- Equipment downtime was significantly reduced
- The project proved to be a benchmark for other facilities in the US
