

Customer Case: Pipe Manufacture

Company Overview

Our client is one of the largest North American producers of welded and seamless pipe and premium connections dedicated to serving the oil and gas industry and many industrial markets

Challenges

- This is a Union shop, which is a tough route to take when trying to implement automatic systems, and possibly taking away a full time job.
- We worked in the thread shop where series progressive was present, but done manually.
- Educating the maintenance workers on how the system works.

Solutions / Products

- LubriSource Technicians provided service on regular basis
- Design Automated Lubrication Systems with feedback to decrease manual systems
- Provide Training to Client

Benefits

- Flexible Workforce Support ensuring up-time
- The auto system allowed the bearings to receive the correct amount of grease
- The manual panel system, provided direct instructions which helps prevent over/under lubrication
