

Automotive Industry Success Story

Our client, with four plants in Kentucky, is one of the largest interior component suppliers to automotive industry. Our customer employs over 11,000 Team Members in 18 locations throughout the United States, Canada, Mexico, Brazil, and Argentina. They are a premier manufacturer of automotive interior systems, which include seat, door trim, headliner, substrate, and carpet in addition to air and oil filters.

Challenges

- Changing the culture of the company related to lubrication
- The customer had no knowledge of their own lubrication systems
- IMM needed many repair work for lube systems.

Solutions / Products

- Service Team of Lubrication Technicians made monthly inspections of Automated Lubrication Systems
- Updating equipment as we go with Graco products
- Reduced all the “red lights” and continued quarterly inspections to keep red lights non-existent.

Benefits

- Reduced downtime related to lubrication system malfunction
- Maintenance team can put more focus on other duties
- Customer has more knowledge of systems and how to inspect
